Top 15 community colleges in North Carolina by total credit student headcount:

Rank	Community College	Main Campus City	Total Enrollment
1	**Wake Technical Community College**	Raleigh	~24,609
2	**Central Piedmont Community College**	Charlotte	~20,375
3	**Fayetteville Technical Community College**	Fayetteville	~16,050
4	**Cape Fear Community College**	Wilmington	~14,082
5	**Guilford Technical Community College**	Jamestown / Greensboro	~11,485
6	**Forsyth Technical Community College**	Winston-Salem	~9,099
7	**Pitt Community College**	Winterville / Greenville	~7,684
8	**Rowan-Cabarrus Community College**	Salisbury	~7,028
9	**Asheville-Buncombe Technical Community College**	Asheville	~6,510

Rank	Community College	Main Campus City	Total Enrollment
10	**Gaston College**	Dallas / Gastonia	~6,443
11	**Central Carolina Community College**	Sanford	~5,882
12	**Johnston Community College**	Smithfield	~5,371
13	**Durham Technical Community College**	Durham	~5,157
14	**Catawba Valley Community College**	hickory	~4,904
15	**Alamance Community College**	Graham	~4,827

Note: Headcounts are based on total degree-granting undergraduate credit enrollment reported through federal higher-education statistics. Non-credit and continuing-education counts can push total served populations higher (for example, Wake Tech serves over 60,000 total individuals annually when non-credit workforce courses are included).

Colleges that offer AI

Rank	Community College	AI Associate Degree offered?	Program Code & Title
1	Wake Technical Community College	**No** (Concentration course only)	Offers AI courses embedded in Software Development (A25590SD)

Rank	Community College	AI Associate Degree offered?	Program Code & Title
2	Central Piedmont Community College	**No** (Track course only)	Offers AI courses embedded in Data Analysis (A25590DA)
3	Fayetteville Technical Community College	**No**	Standard IT degrees
4	Cape Fear Community College	**Yes**	**A25590AI** – Information Technology: Artificial Intelligence
5	Guilford Technical Community College	**Yes**	**A25590AI** – Information Technology: Artificial Intelligence
6	Forsyth Technical Community College	**Yes**	**A25590AI** – IT - Artificial Intelligence
7	Pitt Community College	**Yes**	**A25590AI** – Information Technology: Artificial Intelligence
8	Rowan-Cabarrus Community College	**No**	Standard IT degrees
9	Asheville-Buncombe Technical (AB Tech)	**Yes**	**A25590AI** – Information Technology: Artificial Intelligence Specialist

Rank	Community College	AI Associate Degree offered?	Program Code & Title
10	Gaston College	**No**	Standard IT degrees
11	Central Carolina Community College	**No**	Standard IT degrees
12	Johnston Community College	**No**	Standard IT degrees
13	Durham Technical Community College	Yes	Standard IT degrees
14	Catawba Valley Community College	**No**	Standard IT degrees
15	Alamance Community College	**Yes**	**A25590AI** – Information Technology: Artificial Intelligence

Both **Asheville-Buncombe Technical Community College (AB Tech)** and **Alamance Community College (ACC)** offer associate-level Artificial Intelligence programs, although they structure their program codes slightly differently. AB Tech houses AI as a direct concentration under the main Information Technology umbrella (A25590AI), whereas **Alamance Community College maintains AI as a standalone degree (A25710)** alongside its IT tracks (A25590).

1. Asheville-Buncombe Technical Community College (AB Tech)

Program Code: (Information Technology: Artificial Intelligence A. A. S.) A25590AI

Total Credit Hours: 64-65 credit hours

AB Tech structures its curriculum to combine core computer foundations (networking, programming, databases) with specialized AI coursework and general education.

Core Technical & AI Focus Areas

- **AI Foundations & Concepts:**
    - CSC 113– Artificial Intelligence Fundamentals
    - CSC 114– Artificial Intelligence Tools I
    - CSC 213– Artificial Intelligence & Decision Support Systems
- **Programming & Data Management:**
    - CSC 121– Python Programming
    - DBA 120– Database Programming I (SQL)
    - DBA 220– Advanced Database Systems / Administration
- **IT Infrastructure & Security:**
    - CTI 110– Web, Programming, & DB Foundations
    - CTI 120– Network & Security Foundations
    - CTS 115– Information Systems Business Concepts
    - CTS 289– System Support Project (Capstone Project)
- **Ethics & Professional Skills:**
    - CTS 120– Hardware/Software Support
    - CTS 240– Computer Ethics
    - CTS 285– Systems Analysis & Design

General Education Requirements

- **Communications:** (Writing and Inquiry) + or ENG 111ENG 112COM 231
- **Mathematics:** MAT 110(Math Measurement & Literacy) orMAT 143/MAT 171
- **Humanities/Fine Arts:** Elective (e.g. , Ethics, Humanities)
- **Social/Behavioral Science:** Elective (e.g. , Psychology, Sociology)
- **College Success:** ACA 115orACA 122

2. Alamance Community College (ACC)

Program Code: (Artificial Intelligence AAS) A25710

(Note: ACC also integrates AI modules across its A25590IT pathways).

Total Credit Hours:65–68 Credit Hours

ACC's curriculum places heavy emphasis on hands-on application, machine learning models, data analytics, and prompt engineering alongside standard IT support.

Core Technical & AI Focus Areas

- **AI & Machine Learning Core:**
    - CSC 113– Artificial Intelligence Fundamentals
    - CSC 114– Artificial intelligence tools
    - CSC 213– Applied Machine Learning & Intelligent Systems
    - CCT 231– Technology Crimes, AI & Law (Legal & Ethical Regulations)
- **Software Development & Data Science:**
    - CSC 121– Python Programming (Primary language used for AI model building)
    - CSC 151– JAVA Programming or Object-Oriented Development
    - DBA 120– Database Programming I
    - NOS 110– Operating System Concepts
- **Systems & Network Foundation:**
    - CTI 110– Introduction to Information Technology
    - CTI 120– Network & Security Foundations
    - CTS 289– IT/AI Capstone Project

General Education Requirements

- **Writing & Communication:** (Writing & Inquiry) + (Professional Research & Reporting) ENG 111ENG 114
- **Quantitative Literacy:** MAT 143(Quantitative Literacy) or higher
- **Humanities / Fine Arts & Social Sciences:**Required Humanities (Ethics recommended) + Social Science elective

- **College Student Success:** ACA 122(College Transfer Success)

Program Comparison Summary

feature	AB Tech (A25590AI)	Alamance CC (A25710)
Degree Classification	Sub-track of Information Technology AAS	Standalone Artificial Intelligence AAS
Primary Programming Language	Python (CSC 121)	Python (CSC 121) + Java options
Key AI Core Courses	CSC 113, CSC 114,CSC 213	CSC 113, CSC 114, CSC 213,CCT 231
Capstone Requirement	CTS 289System Support Project	CTS 289IT/AI Capstone

1. Pitt Community College

Program Code: (Information Technology – Artificial Intelligence Degree) A25590AI

Total Credit Hours: ~65-68 credit hours

Pitt Community College lists its Artificial Intelligence program directly under the standard state Information Technology umbrella (A25590AI).The plan of study merges foundational IT concepts with targeted machine learning and data practices.

Core Technical & AI Curriculum

- **AI & Programming Focus:**
    - CSC 113– Artificial Intelligence Fundamentals
    - CSC 114– Artificial intelligence tools
    - CSC 213– Applied Machine Learning / Decision Support Systems
    - CSC 121– Python Programming
    - DBA 120– Database Programming I (SQL)

- **General IT & Infrastructure Core:**
    - CTI 110– Web, Programming, & Database Foundation
    - CTI 120– Network & Security Foundations
    - CTS 115– Information Systems Business Concepts
    - CTS 120– Hardware/Software Support
    - CTS 285– Systems Analysis & Design
    - CTS 289– System Support Project (Capstone)

General Education Requirements

- **Communications:** (Writing and Inquiry) + a speech or second composition course (or) ENG 111COM 231ENG 112
- **Quantitative Literacy / Math:** (Quantitative Literacy) or higher math (e. g., /) MAT 143 MAT 152MAT 171
- **Humanities/Fine Arts & Social/Behavioral Sciences:** Core electives (Ethics heavily encouraged for AI governance)
- **Success Course:** (College Transfer Success) ACA 122

2. Durham Technical Community College

Program Code: (Artificial Intelligence AAS) A25590R

Total Credit Hours: ~65-69 credit hours

You heard correctly—Durham Tech uses the unique local/state program code for its dedicated **Artificial Intelligence AAS** degree (distinguishing it from standard generic pathways).**A25590R** A25590

Core Technical & AI Curriculum (A25590R)

Durham Tech's technical sequence focuses heavily on chatbot deployment, data analytics, automated systems, and prompt engineering:

- **Specialized AI & Machine Learning Courses:**
    - CSC 113– Artificial Intelligence Fundamentals
    - CSC 114– Artificial intelligence tools

    - CSC 213– Artificial Intelligence & Decision Support Systems (Machine Learning/Deep Learning focus)
    - Dedicated coursework or modules covering **Chatbot & Automation Programming** , **Data Analytics** , and **Ethical & Responsible AI Use** .
- **Programming & Core IT Infrastructure:**
    - CSC 121– Python Programming (Core language for script and model building)
    - DBA 120– Database Programming
    - CTI 110– Web,Programming,& Database Foundation
    - CTI 120– Network & Security Foundations
    - CTS 289– System Support / IT Capstone Project

General Education Requirements

- **Communications:** ENG 111(Writing and Inquiry) and an approved professional communications or humanities elective.
- **Mathematics / Quantitative Literacy:** MAT 143or higher quantitative course.
- **Humanities & Social Sciences:**Required general education electives addressing societal impacts or workplace ethics.
- **Success Course:** ACA 122(College Transfer Success).

Here are the specific course numbers and titles assigned in Durham Technical Community College's course catalog and official **Artificial Intelligence AAS (A25590R)** curriculum for those specialized areas:

1. Chatbot & Automation Programming

- **CSC 128– Chatbot Programming I**
    - **Scope:** Conversational interfaces, natural language processing (NLP) principles, and deploying intelligent software agents using industry-standard tools.
- **CSC 114– Artificial Intelligence Tools** *(or* ***– Artificial Intelligence I*** *depending on catalog year)* ***CSC 114***

- **Scope:** Implementation of specialized software automation frameworks, API integration, and pre-built model tools.

2. Data Analytics

- **BAS 120– Introduction to Analytics**
  - **Scope:** Foundational methods for retrieving, structuring, visualizing, and interpreting data sets to support machine learning models and business decisions.
- **DBA 110– Database Concepts** *(or* ***– Database Programming I*** *)* ***DBA 120***
  - **Scope:** Relational database design, data manipulation, and structured query writing (SQL) required to feed data pipelines.

3. Ethical & Responsible AI Use

- **CSC 113– Artificial Intelligence Fundamentals**
  - **Scope:** Survey of artificial intelligence concepts, algorithms, real-world application models, and embedded modules on **AI ethics, bias, and responsible deployment** .
- **CCT 231– Technology Crimes & Law** *(or core business ethics modules within* ***Information Systems Business Concepts*** *)* ***CTS 115***
  - **Scope:** Legal frameworks, digital security liability, copyright, governance, and societal impacts of emerging automation technologies.
